

CT132SMF Series

From 90nH to 538nH

CHARACTERISTICS

- Description:** SMD air core inductor
- Applications:** Pagers, Cordless phones, High frequency communication products, Intercom, CATV
- Inductance Tolerance:** ±5%
- Testing:** Inductance is tested on an HP4287A at 50MHz
- Operating Temperature:** -40°C to +85°C
- Packaging:** Tape & Reel.
- Miscellaneous:** **RoHS Compliant.**
- Additional Information:** Additional electrical & physical information available upon request
- Samples available. See website for ordering information.**

SPECIFICATIONS

Parts are only available in ±5% inductance tolerance.
